Water Very Low.

It is very seldom that trouble over shortage of water is experienced this early in the season and this may account for the shortage of water that developed yesterday and the day before in the local supply. It is said the Umatilla river near Echo is as low now as it usually gets at any time in the ordinary season.

Has Coins Made Before Christ.

Major Lee Moorhouse has secured the collection of old coins owned by Arthur Benfield who was here from Rupert, Idaho, the first of the week, exhibiting a number of curious old firearms at the Ester Hardware store. In the collection the Major has secured are two especially valuable pieces, because of their age. One is a silver Tetradrachm coined at the ancient city of Syracuse on the island of Sicily 400 years before Christ. It bears a lady's head and dolphins, and is irregularly round. Elegance in dress usually means attention to details. The most perfect costume will have its appearance ruined by a pair of rusty shoes. An ill-fitting shirt will make an otherwise perfect costume look "frowsy." A man's shirt deserves special attention—if he is particular as to his appearance. Don't let your shirts make you look "cheap;" make them add to your dress.
